SHIVAM SONI

Email: shivamsonimails@gmail.com
Phone: +91 9966124587
(**Java Experienced**)

Technical Summary

- Having **around 2 Years** of an experience in Software Development and Implementation using JEE technologies, Java frameworks and RESTful services.
- Good understanding and working knowledge of Object Oriented Programming concepts.
- Hands on Experience in frameworks like **Spring (Core, MVC, AOP, ORM, Security),Spring Boot, Microservices , RESTful.**
- Good exposure on using Servers **like Tomcat, Jboss**.
- Having knowledge of implementing different design patterns like **Singleton, Factory.**
- Good exposure in using **Agile Methodology.**
- Project experience using **Eclipse.**
- Worked on different tools like **Git, Maven, Log4j, Junit.**
- Good understanding of **Software Development Life Cycle (SDLC)** process in the areas of **Requirements Analysis, Design, Implementation** and **Testing**.
- Good team player with strong programming and problem solving skills.
- Highly flexible and capable of learning new tools and Technologies.

Work Experience

- Working as **Software Engineer** at **Artech Infosystems Pvt Ltd** from July 2019 to till date.
- Previous working as **Software Engineer** at **Infogain India Pvt Ltd** from January 2018 to July 2019.

Education Qualifications

- B.E (Bachelor in Computer Science) from **RGPV University** in 2017.

Technical Skills

Programming Languages	: Java
Operating Systems	: Windows, Linux
UI Technologies	: Html, CSS
Database Software	: Oracle10g/11g
JSE Technologies	: JNDI, JDBC
JEE Technologies	: Servlet
Servers	: Tomcat, Jboss
Framework	: Spring (IOC, DAO, AOP, MVC,ORM), Spring Security, Spring Boot, Spring JDBC.
ORM	: Hibernate

Web Services	: Restful
IDE	: Eclipse, STS
Tools	: Log4J, Maven, Git, Junit,Kafka

Project Summary

Project #1

Project Name	: Entity MDM
Role	: Developer
Description:	

EMDM is an operating environment framework consisting of services and controller classes which process the customer data and partner data and keeps these data in IDQ server as a text or any format file process these data in IDQ and push it to the EMDM DB .HPE who uses this Application to do the business with its customer and partners .HPE sells its product throughout the world with its partner and customer So it uses several services and controllers like EMDM Party service and EMDM location service and GTS etc. By which customer can store their details with their addresses and the location with their postal code and country code to do their business.

Team Size	: 8
Technologies	: Java, Spring, Spring Boot, Hibernate, Microservices, Restful, SQL,JBOSS,
Tools	: Log4J, Maven, GIT, JUnit, Eclipse, Postmen, Swagger UI.

Roles and Responsibilities:
- Analyzing the user requirements.
- Execute software development life cycle (SDLC)
- Integrating spring with RESTful.
- Developing Model Layer (Controller, DAO, Service) Resources.
- Prepare & execute Unit test cases.
- Involved in code enhancement, bug fixing, Debugging code.

Project #2

Project Name	: Springwel vendor's eStore Application
Role	: Developer
Description :	

Now days every vendor is required to be register with all the e-commerce applications to upload their products. To overcome this problem Springwel vendor's eStore Application is created. It is acting as a mediator between vendor and e-commerce application. Once vendor is registered with this Application, it will allow to upload their products. Whatever the products are uploaded by vendor those products information is showing to e-commerce application.
E-commerce application will get the products data from this application and uploading into their sites for selling in online. This application helps to vendors to manage and run their business on easy way. It allows monitoring overall status of business. Manage vendor's listings and orders. Receive metrics on the current performance of vendor's business it will provide recommendations based on vendor's sales data, on how to grow vendor's business.

Team Size	: 6
Technologies	: Java, Servlet, Spring, Spring Boot, Hibernate, Restful(Jersey), Oracle11g, Apache Tomcat
Tools	: Log4J, Maven, SVN, JUnit, Eclipse

Roles and Responsibilities:
- Understanding the business requirements.
- Coordinating with the team actively.
- Developing Model Layer (DAO, Service) Resources.
- Prepare & execute Unit test cases.
- Involved in code enhancement, bug fixing.

PERSONAL INFORMATION

- Father Name   -------   MR. **P.N SONI**

- DOB   -------   20-01-1992
- Address   -------   Word No-13,Near Avantika Colony,
  Ashok Nager, Raisen
  State-**Madhya Pradesh,** Pincode-(**464551**)

Declaration

I hereby declare that the information furnished above is true to the best of my knowledge.
